Re: Draft Application entitled
"ELECTRICAL SMOKING SYSTEM FOR DELIVERING FLAVORS AND METHOD FOR MAKING SAME"
Your Reference: PM 1697
Our Reference: 021238-037

Dear Charlie:

Enclosed are two copies each of a third draft of the above-identified proposed application, a numbering key, and informal drawings that we have prepared in view of the comments and new information that we received during our visit to Philip Morris on August 16, 1993.

The Detailed Description portion of the application has been almost entirely rewritten to describe the latest embodiment of the lighter. Additionally, the claims have been revised and new claims have been added to claim additional features of the invention. As we discussed during your visit here on August 19, 1993, formal drawings are presently being prepared. We expect that any revisions to the formal drawings that might be necessary will be completed by the end of next week.

There are still several points (indicated by bold print in the enclosed draft applications) that we did not have a chance to confirm with the inventors during our visit and that we have been unable to confirm by telephone. We can probably resolve these matters by telephone this week after you and the inventors have had an opportunity to look through the new draft.
